

Primary Leveled Readers

Delta Explore Readers are nonfiction student books that build informational literacy skills through science content area reading and engaging photographs while promoting scientific inquiry at the primary grades.

Each Delta Explore Reader

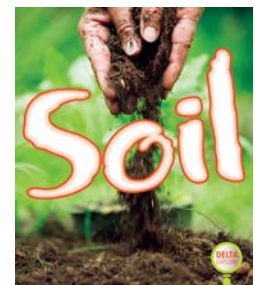

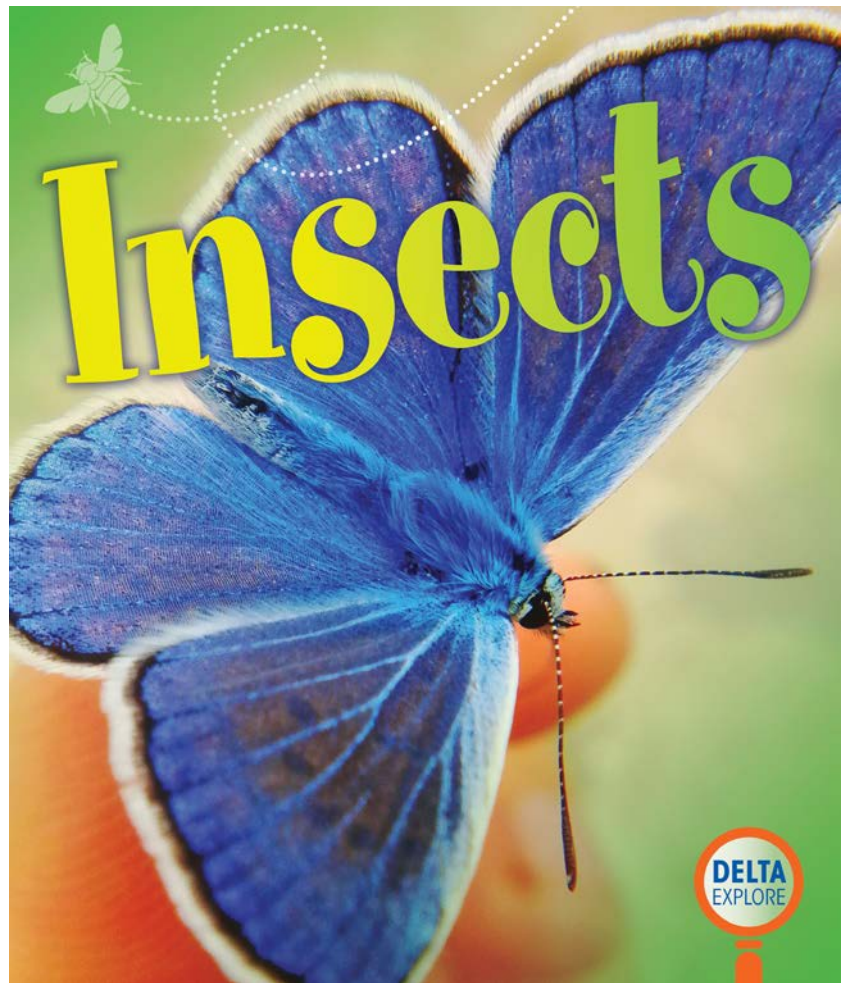

- Covers key standards-based science content
- Contains the same key science content, vocabulary, and photographs
- Highlights a career related to the topic
- Is available in three Lexile levels

Green 400L-545L

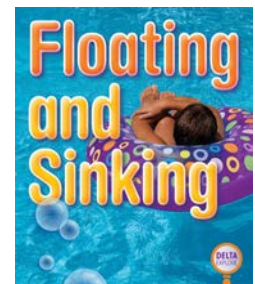

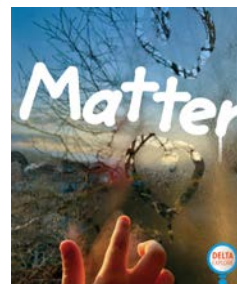

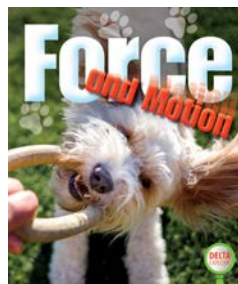

Orange 270L-400L

Pink 100L-270L

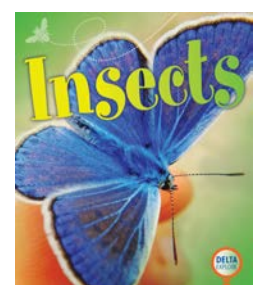

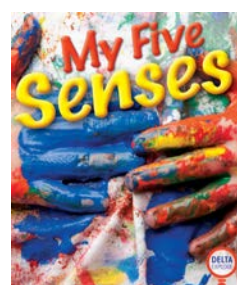

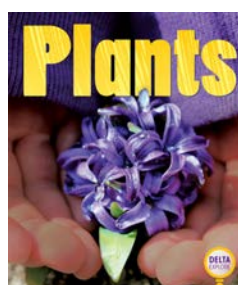

Reach all of your students with three different Lexile ranges! Each level is distinguished by a color key on the back cover.
