

Connecting Numbers and Words

NCTM Standards 1, 2, 6, 7, 8, 9, 10

I. Draw lines to match.

twenty

12

twelve

4

ten

14

four

20

fourteen

10

forty

13

thirty

40

thirteen

30

fifty-seven

75

eighty-nine

17

seventy-five

57

seventeen

99

sixty-one

89

ninety-nine

61

Use a ruler
to help you
draw lines.

NOTE: Your child is learning to match numbers with word names and vice versa. You may ask your child to explain how a word name can tell how many tens and ones are in a number.

Write each number.

2. sixteen

3. fifteen

4. forty-seven

5. twenty-nine

6. thirty-six

7. sixty-three

8. fifty-eight

9. seventy-four

10. ninety-two

11. eleven

Write each word name.

12. 56 _____

13. 22 _____

Use the word names on the page to help you.

 14. How many tens and ones are there in forty-three?
Explain how you know.

Challenge

15. What number is missing?

Twenty-seven plus thirteen equals _____
