

Name _____

Comparing Numbers, Temperatures, and Weights

Numbers on a Thermometer

STEP 1 Estimating

How does the air feel inside?

Take a look outside.
How do you think the air feels outside?

STEP 2 Observing

Look at the numbers on a thermometer.
What pattern do you see?

STEP 3 Comparing

Is the temperature outside warmer than, cooler than,
or about the same as the temperature inside?

How would the thermometer change if you
brought it to a place that is cooler?
