

Separating Arrays

Each array was cut into four parts. The number of tiles in each part were added together to find the total number in the array. Draw lines to show how the array was cut, and fill in the blanks.

$$20 + 12 + 10 + \square = \square$$

↑
(4 × 5)

$$16 + 20 + \square + 15 = \square$$

↑
(4 × 4)

$$32 + 16 + \square + 16 = \square$$

↑
(4 × 8)

$$9 + \square + 18 + 30 = \square$$

↑
(3 × 3)

$$\square + 12 + 12 + 9 = \square$$

↑
(4 × 3)

$$28 + \square + 12 + 18 = \square$$

↑
(7 × 4)
