

Working Strategically

Here are four clues for a mystery number puzzle.

I am a two-digit number. I am an odd number.

$$t \times u = 6$$

$$t > u$$

- 1 Find the mystery number, and record the clues in the order you use them.

Who Am I?	
A	_____
B	_____
C	_____
D	_____

mystery number: _____

- 2 Why did you choose to start with the clue you did?

- 3 How did you choose your second clue?
