

Problem Solving Strategy

Draw a Picture

NCTM Standards 1, 2, 6, 7, 8, 9, 10

- 1 Derek wants to buy 4 stuffed animals. Each one costs \$2.13. How much money does Derek need? Draw a picture to show how you solved the problem.

- 2 There are about 320 third graders in Belltown. There are about 20 students in each classroom. About how many third-grade classrooms are there in Belltown?
-

- 3 It is 84 days until Rashid's birthday. How many weeks is that?
-
