

Comparing Fractions

Complete the table. Then compare the amounts using $<$, $>$, or $=$.

1

Fraction of an Hour	Minutes
$\frac{1}{2}$	30
$\frac{1}{4}$	
$\frac{1}{6}$	
$\frac{2}{4}$	
$\frac{3}{4}$	
$\frac{5}{6}$	
$\frac{1}{3}$	
$\frac{1}{12}$	

2 $\frac{1}{2}$ of an hour $>$ $\frac{1}{3}$ of an hour

3 $\frac{1}{2}$ of an hour \bigcirc $\frac{2}{4}$ of an hour

4 $\frac{1}{6}$ of an hour \bigcirc $\frac{5}{6}$ of an hour

5 $\frac{3}{4}$ of an hour \bigcirc $\frac{3}{6}$ of an hour

6 $\frac{3}{4}$ of an hour \bigcirc $\frac{5}{6}$ of an hour

7 $\frac{2}{4}$ of an hour \bigcirc $\frac{2}{3}$ of an hour

8 $\frac{4}{12}$ of an hour \bigcirc $\frac{4}{6}$ of an hour

Test Prep

- 9 Wendy started biking at 2:35, and she rode for $\frac{1}{2}$ of an hour. Then she cleaned her room for $\frac{3}{4}$ of an hour. What time was it when Wendy finished cleaning her room? Explain how you found your answer.
