

Multiplying with Larger Numbers

Use the diagram to help you find the product.

1

	10	7
10	100	70
3	□	□

$17 \times 13 = \square$

2

	10	6
10	□	□
6	□	□

$16 \times 16 = \square$

3

	20	4
10	□	□
2	□	□

$24 \times 12 = \square$

4

	20	1
20	□	□
7	□	□

$21 \times 27 = \square$

Test Prep

- 5 Latoya tosses two cubes numbered 1 through 6. She adds the numbers. Which is more likely? She will get a sum greater than 10 or a sum 10 or less? Explain how you know.
