

**Problem Solving**

1 Continue the pattern. Write the number of intersections for the fourth, fifth, and sixth diagrams.

**Algebra**

Solve. Are the missing numbers in each pair the same? Circle *Yes* or *No*.

2  $9 + \blacksquare = 16$        $16 - \blacksquare = 7$       Yes      No

3  $\blacksquare - 5 = 12$        $5 + 12 = \blacksquare$       Yes      No

4  $15 - 9 = \blacksquare$        $9 + 6 = \blacksquare$       Yes      No

**Number and Operations**

Find the missing numbers in the addition puzzle.

5

7		15
	4	10
	12	25

6

	9	14
2		6
7		20

7

	3	
	0	8
8		11
