Name _____ Date _____

Spiral Review
Lesson 10

Number and Operations

Estimate the sum.

1 $\begin{array}{r} 26 \\ +98 \\ \hline \end{array}$	2 $\begin{array}{r} 49 \\ +72 \\ \hline \end{array}$	3 $\begin{array}{r} 22 \\ +53 \\ \hline \end{array}$	4 $\begin{array}{r} 281 \\ +509 \\ \hline \end{array}$
5 $\begin{array}{r} 168 \\ +429 \\ \hline \end{array}$	6 $\begin{array}{r} 311 \\ +693 \\ \hline \end{array}$	7 $\begin{array}{r} 904 \\ +185 \\ \hline \end{array}$	8 $\begin{array}{r} 633 \\ +81 \\ \hline \end{array}$
9 $\begin{array}{r} 559 \\ +187 \\ \hline \end{array}$	10 $\begin{array}{r} 343 \\ +262 \\ \hline \end{array}$	11 $\begin{array}{r} 806 \\ +705 \\ \hline \end{array}$	12 $\begin{array}{r} 934 \\ +69 \\ \hline \end{array}$
13 $\begin{array}{r} 88 \\ +920 \\ \hline \end{array}$	14 $\begin{array}{r} 611 \\ +299 \\ \hline \end{array}$	15 $\begin{array}{r} 880 \\ +964 \\ \hline \end{array}$	16 $\begin{array}{r} 595 \\ +931 \\ \hline \end{array}$

Problem Solving

Use a strategy and solve.

17 Ken uses small cubes like this one to make a larger cube.

What is the smallest number of small cubes he needs to make a larger cube? _____

18 Mallory folded a rectangular sheet of paper in half. She folded it in half again, and then half one more time. When she unfolded the paper, she shaded four of the sections created by the creases. What fraction of the paper did she shade? _____
