

**Measurement**

Show how to make each amount of money using the fewest coins.

1	28¢	Quarters	Dimes	Nickels	Pennies

2	81¢	Quarters	Dimes	Nickels	Pennies

3	42¢	Quarters	Dimes	Nickels	Pennies

- 4 Willy has 38¢. What is the largest number of nickels he can have? \_\_\_\_\_

**Problem Solving**

Use a strategy and solve.

- 5 Jen made a table to show how far she walked each day.

	Monday	Tuesday	Wednesday	Thursday
Blocks	2	1	4	6
Minutes	10	5	20	30

If she walks at the same speed that she walked on previous days, how many blocks would she walk if she walked for 15 minutes on Friday? \_\_\_\_\_

- 6 What is a rule for the pattern below?

80, 40, 20, 10, 5
