Data Analysis and Probability

For 13 to 16, use the pictograph. It shows how many calculators were replaced during the school year.

- 13** Which grade had the fewest calculators replaced during the school year?

- 14** How many calculators were replaced during the school year?

- 15** It costs \$5.00 to replace a calculator. How much did it cost to replace all the calculators?

- 16** How does the number of calculators replaced in the fourth and fifth grades compare to the number in the second and third grades?

| CALCULATORS REPLACED DURING THE SCHOOL YEAR | |
|--|---|
| Fifth grade |  |
| Fourth grade |  |
| Third grade |  |
| Second grade |  |

Key: Each  = 2 calculators.
