

## Measurement

Use the starting time and the time interval to find the ending time.

- 1 Start reading at 3:30 P.M. Read for 1 hour 30 minutes. \_\_\_\_\_
- 2 Start riding to school at 7:50 A.M. Ride for 15 minutes. \_\_\_\_\_
- 3 Start playing soccer at 2:45 P.M. Play for 1 hour 10 minutes. \_\_\_\_\_
- 4 Leave on a family trip at 7:20 A.M. Drive for 4 hours 55 minutes. \_\_\_\_\_
- 5 Start working on a science project at 8:20 A.M. Work for 7 hours 30 minutes. \_\_\_\_\_
- 6 Start playing a game at 7:45 P.M. Play for 1 hour 20 minutes. \_\_\_\_\_
- 7 Start riding home from school at 3:55 P.M. Ride for 18 minutes. \_\_\_\_\_

---

## Problem Solving

Use a strategy and solve.

- 8 Centerville has 3 streets that run east to west and 6 streets that run north to south. The streets cross to form a grid. How many intersections are in Centerville? \_\_\_\_\_
- 9 Allie's school has 4 doors. In how many different ways is it possible for Allie to go into school in the morning and leave in the afternoon? \_\_\_\_\_
- 10 Each side of a rectangle is a whole number. Its perimeter is 6 times the length of one shorter side. What is the shortest possible length of each side? \_\_\_\_\_
