

Introducing the Cross Number Puzzle

1 In a Cross Number Puzzle, amounts on both sides of a heavy line must be the same. Fill in the blanks to complete this Cross Number Puzzle and the related addition sentences.

1	2	3
4	3	
	5	10

1	2	3	+	1	+	2	=	3
+ 4	+ 3	+ 		4	+	3	=	
	5	10			+	5	=	10

Complete each Cross Number Puzzle and number sentence.

2

		•	numbers	
 		••• ••• •••	337	337
 		••• •••	256	+ 256
 				

The blocks will not be the fewest blocks that match the total sum. You may want to draw another picture that shows fewest blocks to help you find the sum.

3

		•	numbers	
 			530	530
		••• •••	195	+ 195
				

The blocks will not be the fewest blocks that match the total sum. You may want to draw another picture that shows fewest blocks to help you find the sum.
