

Sharing Erasers

At the beginning of the school year, the Eraser Store sent erasers to different schools. Each school divided its erasers evenly among the grades.

For each grade shown below:

A Find the number of erasers each grade received in each school.

B Show how each grade will receive its erasers using the least number of containers.

1 3 grades sharing

B

A _____ erasers for each grade

2 4 grades sharing

B

A _____ erasers for each grade

3 6 grades sharing

B

A _____ erasers for each grade

4 8 grades sharing

B

A _____ erasers for each grade
