

Completing Division Sentences

Complete the problems.

1

$$8 \overline{) 872}$$

$$872 \div 8 = \underline{\hspace{2cm}}$$

2

$$9 \overline{) 819}$$

$$819 \div 9 = \underline{\hspace{2cm}}$$

3

$$9 \overline{) 1,287}$$

$$1,287 \div 9 = \underline{\hspace{2cm}}$$

The students in Miss Sterling’s class were sponsored for a read-a-thon. For every book they read, they received 1 quarter. By the end of the read-a-thon, the class had read 129 books. The class decided to buy 7 new books with the money they raised.

- 4 If each book costs the same amount, what is the most each one could cost?

- 5 Describe how students can divide up the money in order to buy each book separately. (Note: They can’t just divide the quarters into 7 equal groups.)
