

Problem Solving Strategy

Draw a Picture

NCTM Standards 1, 2, 6, 7, 8, 9, 10

Use the large white space to draw pictures if you want.

1 pound = 16 ounces

$\frac{1}{2}$ of a pound = _____ ounces

$\frac{1}{4}$ of a pound = _____ ounces

$\frac{3}{4}$ of a pound = _____ ounces

$\frac{1}{8}$ of a pound = _____ ounces

$\frac{5}{8}$ of a pound = _____ ounces

- 2 Ben and Jasmine shared a small cake that was cut into 6 equal pieces. Jasmine ate $\frac{1}{2}$ of the cake. Ben ate $\frac{1}{3}$ of the cake. What fraction of the cake was left?

- 3 Three kids divided 4 small pizzas equally. How much pizza did each kid get?
