

Dividing Using Multiplication Puzzles

Solve.

1 $7 \times 10 = \underline{\quad}$

$7 \times 3 = \underline{\quad}$

$7 \times 13 = \underline{\quad}$

2 $9 \times 20 = \underline{\quad}$

$9 \times 1 = \underline{\quad}$

$9 \times 21 = \underline{\quad}$

3 $6 \times 6 = \underline{\quad}$

$6 \times 40 = \underline{\quad}$

$6 \times 46 = \underline{\quad}$

4 $5 \times 30 = \underline{\quad}$

$5 \times 6 = \underline{\quad}$

$5 \times 36 = \underline{\quad}$

5 $8 \times 90 = \underline{\quad}$

$8 \times 4 = \underline{\quad}$

$8 \times 94 = \underline{\quad}$

6 $4 \times 60 = \underline{\quad}$

$4 \times 2 = \underline{\quad}$

$4 \times 62 = \underline{\quad}$

7 $11 \times 30 = \underline{\quad}$

$11 \times 5 = \underline{\quad}$

$11 \times 35 = \underline{\quad}$

8 $25 \times 4 = \underline{\quad}$

$25 \times 80 = \underline{\quad}$

$25 \times 84 = \underline{\quad}$

9 $30 \times 90 = \underline{\quad}$

$30 \times 1 = \underline{\quad}$

$30 \times 91 = \underline{\quad}$

10 $90 \times 5 = \underline{\quad}$

$90 \times 50 = \underline{\quad}$

$90 \times 55 = \underline{\quad}$

11 $50 \times 70 = \underline{\quad}$

$50 \times 5 = \underline{\quad}$

$50 \times 75 = \underline{\quad}$

12 $200 \times 20 = \underline{\quad}$

$200 \times 9 = \underline{\quad}$

$200 \times 29 = \underline{\quad}$

Test Prep

- 13 Markers come in boxes of 8. Mrs. Snow bought 27 boxes, but then she returned 4 boxes. How many markers did she have then? Explain how you found the answer.
