

# Designing a Store

Use this floor plan of a department store to answer the questions below.

- 1 Which section has the most floor space? \_\_\_\_\_

---

- 2 Which section has the largest perimeter? \_\_\_\_\_

---

- 3 If the aisle is 6 feet wide, what is the approximate perimeter of the baby clothes section? \_\_\_\_\_ feet

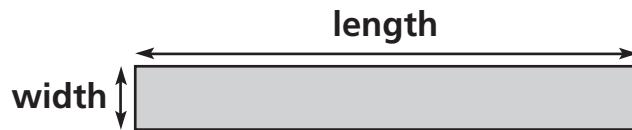

---

- 4 If the perimeter of the shoe section is 48 feet, what is the approximate area of this section? \_\_\_\_\_ square feet

## Test Prep

- 5 The length of the rectangular garden is 10 times the width. If the width is 4 feet, what is the perimeter of the garden? Explain your reasoning.
