

**Geometry**

Write the number of angles that appear to be right angles for each figure.

1

\_\_\_\_\_ right angle(s)

2

\_\_\_\_\_ right angle(s)

3

\_\_\_\_\_ right angle(s)

**Measurement**

Find the length to the nearest inch.

4 length = \_\_\_\_\_ in.

5 length = \_\_\_\_\_ in.

**Problem Solving**

Solve the problems. Explain your answers.

6 Three students are sitting in a row for a photograph. How many different ways can they be arranged?
