

Data Analysis and Probability

For 1–3, use the pictograph.

NUMBER OF TIMES IT SNOWED IN EACH WINTER MONTH	
December	
January	
February	
March	

Key: Each  = 2 times.

- 1 How many times did it snow during the four months? _____

- 2 Each time it snowed in December, there were 5 inches of snow. How many inches of snow were there in December? _____

- 3 It snowed a total of 24 inches in February. If there was the same amount of snow each time, how many inches did it snow each time in February? _____

Problem Solving

Solve the problem. Explain your answer.

- 4 The local bus stops near your house at 7:23 A.M., 7:39 A.M., 7:55 A.M., 8:11 A.M., and so on. If the pattern in the schedule continues, what is the earliest time you can get the bus at this stop after 8:30 A.M.?
