

## Algebra

**Complete the table.**

	Write a number between 10 and 99.	Multiply the number by 9.	Add the digits in the product.
<b>1</b>			
<b>2</b>			
<b>3</b>			
<b>4</b>			
<b>5</b>			

**6** Describe the pattern in the third column.

---

---

## Data Analysis and Probability

**For 7–11, write the numbers 1 through 10 on slips of paper. Predict how many times the outcome will occur for this experiment: Mix up the papers, pick one, record the number, and put the paper back. Do this 10 times. Write whether your results are close to your prediction.**

**7** a number less than 6 \_\_\_\_\_

**8** an odd number \_\_\_\_\_

**9** a multiple of 5 \_\_\_\_\_

**10** a 3 \_\_\_\_\_

**11** Why do you think the results might not match your predictions?
