

7-by-8 Array Separation

- 1 Separate the array into 4 sections. Use 1 horizontal and 1 vertical line.

- 2 Write the multiplication used to find the number of dots in each section.

- 3 How many dots are in each section?

- 4 Complete the sentence to represent your array.

$$(\square \times \square) + (\square \times \square) + (\square \times \square) + (\square \times \square) = \square$$
