

# Estimating Decimals Using Familiar Fractions

- 1 You may use a calculator to divide numerators by denominators to complete the division table.

		<b>NUMERATORS</b>									
		1	2	3	4	5	6	7	8	9	10
<b>DENOMINATORS</b>	÷										
	1										
	2										
	3										
	4										
	5										
	6										
	7*										
	8										
	9										
10											

\* In this row, show numbers to the hundredths place without rounding.

- 2 Describe a pattern that you notice.
