

## Measurement

Use the information in the table to find the missing measurements.

Measures	
1 ft = 12 in.	1 wk = 7 days
1 yd = 3 ft	1 hr = 60 min
1 lb = 16 oz	1 min = 60 sec
1 ton = 2,000 lb	1 m = 100 cm
1 gal = 4 qt	1 L = 1,000 mL

## Geometry

For each figure, write the number of faces, vertices, and edges. If a figure does not have any, write *none*.
