

**Algebra**

Complete each table.

1	If $x$ is	Then $2x + 4$ is
	1	
	4	
	9	
	3	

2	If $x$ is	Then $5x - 7$ is
	2	
	8	
	11	
	5	

3	If $3x + 7$ is	Then $x$ is
	16	
	34	
	37	
	28	

4	If $4x - 9$ is	Then $x$ is
	7	
	23	
	3	
	31	

**Measurement**

Write how you would measure the amount with the containers you have.

- 5 You have a 4-quart container and a 7-quart container.  
How could you measure exactly 33 quarts?

---

---

---

- 6 You have a 3-gallon container and a 5-gallon container.  
How could you measure exactly 1 gallon?

---
