

Geometry

Rotate the triangle 90° clockwise around the point $(4,7)$. Draw the new triangle.

Write the new coordinates of each point after the figure has been rotated.

2 A _____

3 B _____

4 C _____

Measurement

Write the equivalent measure.

5 3 liters = _____ milliliters

6 8 quarts = _____ gallons

7 2,000 milliliters = _____ liters

8 4 pints = _____ quarts

9 8 cups = _____ pints

10 20 cups = _____ quarts

11 5 gallons = _____ quarts

12 2,500 milliliters = _____ liters

13 28 pints = _____ cups

14 16 quarts = _____ gallons

15 6 cups = _____ quarts

16 5 pints = _____ cups

17 500 milliliters = _____ liter

18 3 quarts = _____ gallon
