

**Measurement**

Complete the table.

	Starting Temperature	Temperature Change	Ending Temperature
1	7°C	Up 17°C	
2	16°C	Down 9°C	
3	23°C	Up 18°C	
4	19°C	Up 3°C, then down 9°C	
5	31°C	Down 5°C, then up 16°C	

**Data Analysis and Probability**

For 6–7, use either the table or the bar graph.

HOW MANY HOURS OF TV DO YOU USUALLY WATCH ON A SCHOOL NIGHT?	
Hours Per Day	Number of Students
0	2
1	5
2	11
3	6
More than 3	4

6 The class has 32 students. All students in class on Friday answered the survey questions. How many students were NOT in class?

\_\_\_\_\_

7 Which is more: the number of students who watch less than 2 hours or the number of students who watch more than 2 hours? How much more?
