

Number and Operations

Write the missing numbers at their locations on the number line.
Choose from the numbers in the box.

**Problem Solving**

Use a strategy and solve.

- 2 A computer printer prints 17 pages per minute. If the printer is used for 19 minutes, how many pages will be printed?

- 3 A library ordered 38 copies of a book. If they paid \$17 per copy, how much did they pay for all the books?

- 4 René walks 15 miles each week. If he walks all 52 weeks this year, how many miles will he walk?

- 5 A city gets an average of 43 inches of rain each year. How many inches of rain can the city expect to get during 20 years?

- 6 An entire school is going on a field trip. There will be 16 buses, each carrying 46 students. How many students are going on the trip?

- 7 If a bicycle wheel turns 776 times in a 1-mile ride, how many times will it turn in a 12-mile ride?
