

Measurement**Complete the table.**

1	Cups	4	10	2		9		13
	Pints				4	$4\frac{1}{2}$	8	

2	Quarts	2			5		$3\frac{1}{2}$	
	Cups		16	12		6		40

3	Milliliters				6,000			
	Liters	3	$\frac{1}{2}$	$2\frac{1}{2}$		$1\frac{1}{2}$	$3\frac{1}{2}$	8

Reasoning and Proof**Solve.**

- 4 Mrs. Woo is baking cookies for a school bake sale. She has made 75 cookies and plans to make packages of 12 cookies. How many packages will she be able to make?

- 5 On the first day of school, Mr. Kelly told his students to fill each row of desks before starting another row. There were 6 rows of desks with 5 desks in each row. If there were 28 students in the class, how many were in the last row?

- 6 In Ms. Hyatt's classroom, there are 5 rows of desks with 6 desks in each row. If there are 23 students who fill each row before starting another row, how many rows will be used?
