**Problem Solving****Use a strategy and solve.**

- ㉒ Jerome opens his math textbook. The sum of the page numbers is 49. Their product is 600. At which two pages is Jerome looking?

\_\_\_\_\_

- ㉓ Dwayne's father is 24 years older than Dwayne. Together, their ages add to 42. How old is Dwayne?

\_\_\_\_\_

- ㉔ Alison, Sherry, and Marisol bought some books at the mall. They spent a total of \$35. If Sherry spent twice as much as Alison, and Alison spent twice as much as Marisol, how much did each girl spend?

\_\_\_\_\_
