

**Measurement**

Measure the sides of the figure to the nearest centimeter. Then find the perimeter.

$\overline{AB}$  \_\_\_\_\_  $\overline{BC}$  \_\_\_\_\_  
 $\overline{CD}$  \_\_\_\_\_  $\overline{AD}$  \_\_\_\_\_  
 Perimeter \_\_\_\_\_

$\overline{MN}$  \_\_\_\_\_  $\overline{NP}$  \_\_\_\_\_  
 $\overline{PQ}$  \_\_\_\_\_  $\overline{MQ}$  \_\_\_\_\_  
 Perimeter \_\_\_\_\_

Measure the sides of the figure to the nearest half inch. Then find the perimeter.

$\overline{RS}$  \_\_\_\_\_  $\overline{ST}$  \_\_\_\_\_  
 $\overline{TU}$  \_\_\_\_\_  $\overline{RU}$  \_\_\_\_\_  
 Perimeter \_\_\_\_\_

$\overline{LM}$  \_\_\_\_\_  $\overline{MN}$  \_\_\_\_\_  
 $\overline{LN}$  \_\_\_\_\_  
 Perimeter \_\_\_\_\_

**Problem Solving**

Use a strategy and solve.

5 A total of 2,596 people voted in a local election. Burns got half of the votes. Diaz got 1,135 votes. Norton got the remaining votes. How many people voted for Norton? \_\_\_\_\_

6 A graph of Hightown's budget shows that one-half of the money goes to paying salaries, one-fourth goes to town services, and the rest is divided among other agencies. If the budget is \$350,000, how much goes to other agencies? \_\_\_\_\_
